

# Server Rules

---

## SECTION A: Responsibilities, and Definitions

### A-1: Your Agreement

You agree to follow the server rules stated below, Discord's TOS, and community guidelines, including future changes. Discussions regarding Discord Clients (BetterDiscord, Vencord, etc..) are allowed, and we will not punish the ones who do.

### A-2: Our Responsibilities

We take zero responsibility of the security of your account. It is up to you to click whatever link from whoever.

### A-3: Your Content

When we say "your content" in these terms, we mean all the things you add (upload, post, share, stream, etc.) to our server. This includes text, links, GIFs, emoji, photos, videos, documents, or other media. If there is another way for you to add content to our server, it includes that too.

### A-4: Bypassing Rules

Intentionally bending the rules and trying to find loopholes in the rules will result in moderate action. Not every rule is clear-cut and perfectly defined, so avoid trying to prove otherwise. If you feel like you have been treated unfairly by a Moderator, please report it to an Admin. If you feel like you have been treated unfairly by an Admin+, DM [wndx2](#)

### A-5: Bypassing AutoMod

If your message gets blocked, it was because it was blocked by automod. When this happens, do not try to send your message by changing the letters of words in order to push it through (eg, retard = restarted). This is known as an automod bypass, and you will be punished for it.

### A-6: Staff Rights

You agree that the Staff reserves the right to do take any moderate action in any channel to keep the server safe for everyone. *If we don't like you, you're out.*

## SECTION B: Text Channels

### B-1: No Excessive Swearing

We do not allow excessive swearing of any form towards anyone under any circumstances. However, we do allow light swearing in the server.

### B-2: No Death Threats, Sexism, Racism, or any kind of Hate Speech

This includes racism, sexism, homophobia, transphobia, etc. Comments or jokes that look like hate speech will be punished accordingly. Additionally, having a Swastika on your profile, or sending them will also be punished. Death threats, will also result in punishment. This includes threats that are meant to be jokes.

### B-3: No Suicidal Comments, or Jokes

This includes using the term "kys", or "kms". We don't care even if you meant "Keep your self safe". We will punish everyone who uses any terms with regards to self-harm, or suicide.

### B-4: Respect Everyone

Do not troll, be toxic, cause arguments, or be rude to members.

Intentionally asking controversial questions or responding to members with the intent to cause arguments or anger members (ragebaiting) will result in punishment.

### B-5: Avoid Spamming

No spamming is tolerated in our server, except in designated channels, where the staff 'clearly' said that 'you can spam in this channel'.

### B-6: Avoid Sensitive Topics

We want to try and respect everyone's opinions. If you do happen to talk about a sensitive topic in a 'non-designated channel', and drama does cause, moderate actions will be handed out.

### B-7: No Leaking Private Information, or talking about Doxxing, Swatting, Raiding

Any threat or joke about raiding, doxxing, or swatting someone will result in a permanent ban. Sharing doxxing information is also considered a bannable offense, even if you are trying to make mods aware of it. When in doubt, create a ticket.

**B-8: English Only**

Our server is an English-speaking server, as well as we may not have the moderation to moderate in other languages (we do not intend to ever allow other languages either, so do not ask). Google Translate does exist if you need to use that.

**B-9: No Drama**

Any drama caused in any channels may be purged without prior notice. If you happen to cause any sort of drama, you will be punished accordingly.

**B-10: No Mini-Modding**

Mini-modding (also known as backseat moderating) is correcting someone's behavior when you are in fact not a moderator. This is not allowed as it is annoying, and we will punish you if you do.

---

## SECTION C: Voice Channels

**C-1: No Sound Terror**

No sound terror, or ear-rape – screaming, shouting, moaning, excessive use of soundboards that may trigger people. And yes, that includes metal pipes.

**C-2: No Switching Voice Channels Continuously**

Switching voice channels fast may flood our logs, and we will warn you if you tend to do that.

**C-3: No Recording Voice Channels**

Recording VCs without consent is frowned upon in the server, therefore we do not allow it. You need consent from everyone in the VC if you are going to record the VC. The only exceptions to this rule are the stages hosted by the owners, which we do allow.

---

## SECTION D: Explicit Content

**D-1: No NSFW Content**

NSFW content is any content meant to sexualize or inflict arousal. This includes but is not limited to: jokes, memes, conversation, and pictures. And please, do not say "I'm horny" or something. We will mute you for like a month if you do that.

**D-2: No NSFL Content**

NSFL (Not Safe For Life) are videos, pictures, or conversation that involves but is not limited to gore and any other topics that intend to shock or disturb members. Any discussion about these topics in 'non-designated channels' will result in severe punishment.

**D-3: No E-dating, or Flirting**

Due to minors being on our server, we have a zero tolerance policy on e-dating and flirting. Members who try to converse or send media to other members with the intent of flirting/hitting on/rizzing up, whether a joke or not, will be punished.

- This also includes coming into the server with the intent of looking for people to flirt with or baiting people ("I like older men", "Any cute girls here?").

**D-4: No Malicious Content**

Sending viruses or malware goes against Discord's Terms of Service, and we will ban you if we find out you have sent or participated in them in or out of the server.

- You are allowed to discuss viruses/malware in the appropriate channels, under the condition that you *do not share them, teach others how to make them, or provide resources for doing so*. You are not allowed to publicly share/show the source code, or stream viruses/malware in voice chat.

**D-5: No Piracy/Illegal Content**

We strictly prohibit any pirated, or illegal content, including sharing, telling others how to pirate stuff or download illegal content, or provide resources for doing so.

- This includes ALL .exe files regardless of content. If you tend to post ANY .exe files, you will be punished.

---

## SECTION E: Profiles & Accounts

**E-1: Profiles Must Adhere to our Rules**

Discord profiles must abide by all server rules as well as Discord's Terms of Service. Any NSFW, automodded words, racism, hate speech, sexism, transphobia, malicious content, etc. will result in you being punished. Every part of your profile is able to be moderated including, name, bio, PFP, and pronouns.

## **E-2:** No Impersonation

Impersonating any staff, owners, or other members will result in a ban, joke or not. Impersonation of select other bots/YouTubers are also subjected to be moderated at moderator discretion.

---

These are subject to change at any time without prior notice, and it is your responsibility to check them out regularly to make sure that you're following the rules.

Although we aren't **that** strict with rules, if we do have to punish a member at some point, we will be strictly following these rules.
